

## Give Us Your Feedback

Hi, it's me Salman.

Thank you for choosing and using Savoria POS: Enterprise Point of Sale & Inventory Management.

You are free to use this system for any purpose, including personal portfolios, campus assignments, freelance client work, practice, or internal company tools. This project was built with a "Production-Ready" mindset to ensure you have a solid foundation for real-world business needs.

Your Feedback is Valuable

We would love to hear your honest thoughts about the code quality, database structure, and overall usefulness of this project. Whether you found the Midtrans integration helpful or have suggestions for the Bento Grid UI, your input will help us improve future templates to better support the developer community.
